Hi Rob – I believe we all definitely need an AAR on this response, but unfortunately I have a required audit to attend that day. But at some point, and hopefully soon, we do need to get one going. Lots to learn on this one. And I must say, one of the pro's, if you will, was having CRITFC's help and involvement as you were.

Subject: Linsey Lake review

Good morning Don and Richard,

Would you both be available for an informal lunch meeting at the CRITFC offices on April 4 to share some reflections on the Lindsey Lake spill.

We had a number of CRITFC staff involved in the response and we are continuing to better understand the contributions our staff can make to the response in coordination with all involved.

CRITFC is going to have an internal review ("hotwash") of the Lindsey Lake spill in the morning on April, 4. We'll be discussing internal roles and responsibilities and the spill response outcomes.

If you could join us for an hour at noon on the 4th that would be great.

Best regards,

Rob
